pense over the American election is ended at last, so far as Honolulu is concerned, and we know that Harrison and Morton are elected by larger majorities, both in the electoral college and on the popular vote, than Cleveland and Hendricks received four years ago. Cleveland has played his game with courage and ability, and been badly beaten. He put all his eggs, so to speak, in one basket, and the result is no chickens. It is too soon to predict with any degree of certainty what the effect of a change in the national administration will be upon the interests of these Islands. That will depend mainly upon Congress. The TEN - PAGE EDITION. Republicans claim a small majority in the coming House of Representatives, and the Senate is already in their hands. As on former occasions, New York was regarded as the pivotal State, and here both parties strained every nerve to secure a victory. Four years ago, a change of less than six hundred votes in a total poll of over one million would have given the State to Blaine, and made him President. This year, Harrison's plurality is between thirteen and fourteen thousand. If Harrison had carried West Virginia, as all but the very latest reports indicated, he would have been elected without New York, receivdisease, the unfortunate victims have ing 203 electoral votes out of a total of 401. ## VALUE OF ADVERTISING.

NE IMPORTANT THING which advertisers should understand is, that they should advertise to get customers. An advertiser should place his announcement where it will reach the men who buy his wares, and in this respect the HAWAIIAN GAZETTE is an unequaled medium, for its readers are the principal consumers, not only for all kinds of merchandise, but are traders as well.
